

## CSS would like to invite you to a technical presentation and hands on session with the Mitsubishi RV 6 Axis Robot on Thursday 22<sup>nd</sup> May 2014.

**With compact design, IP67 protection and an impressive integration options; the latest MELFA RV series robots are suited to a very wide range of applications.**

Contact us to confirm your place on one of the two sessions at our offices in Llantarnam:

- Afternoon session will run from 2.00pm – 4.00pm.
- Evening session will run from 5:30pm – 7.30pm.

If you have an application in mind there will be time after each session to discuss your requirements.

Tea, coffee and sandwiches (crusts removed by the robot) will be provided at both sessions.
